Supplementary Data for

Monthly Staffing Report of Nursing and Midwifery Levels for November 2025

The data in this document is supplementary to the Monthly Staffing Report and provides a more detailed breakdown of the data supplied.

Staffing variance

Staffing variance included in the following tables show the reasons for any variation using the guidelines below.

Number	RN & HCSW Negative Variance Rationale
1	Lower than expected activity during the month, therefore staffing gaps were not required to be filled.
2	Lower than expected acuity and dependency of patients during the month, therefore staffing gaps were not required to be filled.
3	Staffing gaps were covered by staff from other wards or areas that were not included in the ward rosters.
4	None of the above. See narrative.

Number	RN & HCSW Positive Variance Rationale
1	Higher than expected activity during the month therefore extra staffing was required.
2	Higher than expected acuity and dependency of patients during the month therefore additional staffing was required to safely care for patients
3	Specialist RN's or Psychiatric NA/ Enhanced Care Observation NA required for specific patients
4	None of the above. See narrative

Fill Rates

The fill rates are colour coded according to ratings outlined below.

RAG rating for Fill Rate	Red	Amber	Green	Blue
Thresholds (75% is the national red flag level)	< 75%	75%- 95%	95%-100%	101%>

Note: the red rating has been set at less than 75% to be in line with the national guidance that states that: -

A shortfall of more than 8 hours or 25% (whichever is reached first) of registered nurse time available compared with the actual requirement for the shift. For example, if a shift requires 33 hours of registered nurse time, a red flag event would occur if 5:45 hours or less of registered nurse time is available for that shift (which is the loss of more than 25% of the required registered nurse time).

Bank & Agency Usage

The following charts show the percentage of staffing by Division of substantive, bank and agency for in-patient wards based on actual hours worked.

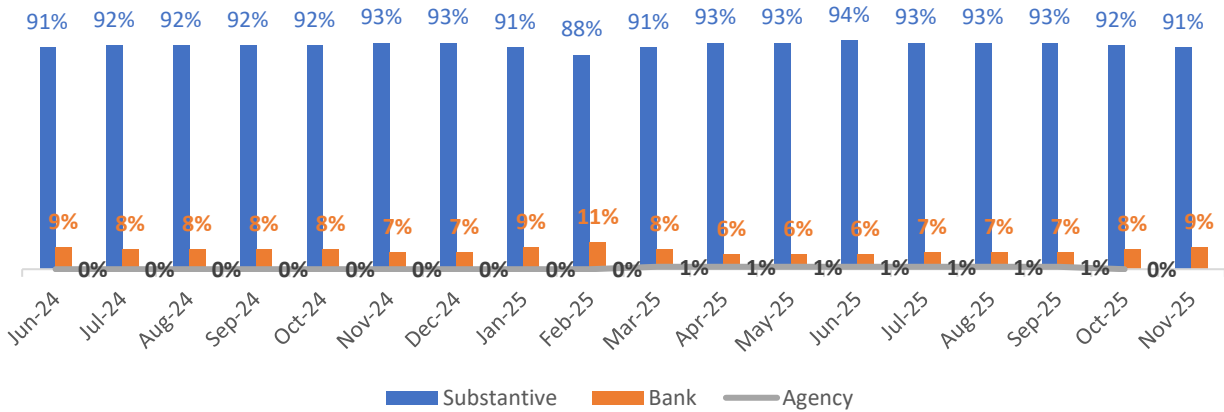

These charts are created from hours recorded in and generated directly from the E-Rostering system.

Childrens - Substantive, Bank and Agency Usage

Womens - Substantive, Bank and Agency Usage

Weston - Substantive, Bank and Agency Usage
